

Design Notes

Use these questions to help you ideate as well as explain your fashion tech piece.

What is your story for this piece?

How are the Elements of Fashion Design used to tell this story?

- Color
- Line
- Shape
- Texture

Where will tech be used in the design? What tech will be used? How does the tech help tell the story? How will it be attached? How will the power source be attached and where? Is a wiring diagram needed?

What textile materials will be used?

Other considerations might be amount of materials and the cost. Where to purchase? Are there special techniques that might need expertise? Where can help be found?

Examples of design notes:

- Gray fabric, to cover the shoulders to represent the cities we want to protect from rising sea levels.
- Blue lights running up legs of pants to show the level of the water rising in the oceans.
